The Leverton

4 bedroom home

About this home

The Leverton is a highly desirable family home: traditional in its double-fronted exterior, but intelligently designed to meet the demands of twenty first century life inside.

The ground floor also accommodates a study – the perfect quiet space in which to make working from home a real joy. Alternatively, this room would serve very well as a snug or a playroom.

The Mylne

4 bedroom home

About this home

The Mylne is a popular home which facilitates the demands of modern family life through clever design and attention to detail.

At its heart is a spacious open plan kitchen, dining and family room. An increasingly popular feature of the modern home, this is an ultimately flexible space: one which can easily accommodate family meals and socialising on a larger scale, but also the demands of food preparation while looking after small children. With French doors providing access to the garden, this design is popular with pet owners as well as parents of young children. And the potential for a party on a summer's evening to spill out into the garden gives the room considerable appeal.

For a more formal gathering, or simply for a quieter space in which to relax, the living room has considerable appeal. With a large window, this too is a bright and airy space.

The first floor hosts four bedrooms and a family bathroom. The master bedroom offers the luxury and privacy of an en suite, ensuring that queues for the bathroom are a thing of the past. The inclusion of a fourth bedroom considerably increases the flexibility of the home, offering potential as a guest room, home study or snug.

It's clear to see why the Mylne is popular, not simply as an ideal family home, but offering considerable flexibility for all lifestyles.
